

OUR PUBLICATIONS

The LMI Group present below a range of publications offered as important tools for every insurance broker, agent, insurance practitioner or the individual charged with the insurance/risk management function of any business. A must for every practitioner!

BUSINESS INTERRUPTION INSURANCE & CLAIMS

A Practical Guide to Business Interruption Insurance for Business Managers, Insurance Brokers and Advisers

ABAI Members AUD80

Any business represents a valuable asset, which generates an income and gross profit stream. How to insure this is not taught in any business or commerce degree, and yet getting it wrong can destroy years of hard work and astute business decisions.

This is the first easy-to-read guide, which steps the reader through the points to consider in insuring the gross profit of a business. It details which expenses should be insured, and why. The vital areas of wages insurance and additional increased costs of working, are given special attention. The book also explains the process of making a claim, the basis of proof, and what information needs to be gathered from day one. Finally, the management of a crisis after it has occurred, is addressed in detail.

UNDERSTANDING THE ISR POLICY

A Comprehensive Guide on the cover afforded by the Industrial Special Risks Policy for Insurance Brokers and Advisers, Underwriters and Claims Officers, Loss Adjusters, and Risk Managers: Volumes 1, 2 & 3

ABAI Members AUD400

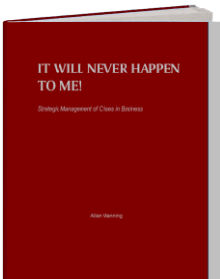

This is by far and away the most comprehensive guide to the ISR wordings ever produced.

The Guide spans three volumes, and provides a clause-by-clause explanation of the Mark IV policy, Advisory and Modified versions (Volume 1), and the Mark V policy, Advisory and Modified (Volume 2). Each volume provides a comprehensive list of endorsements. Volume 3 of the Guide contains a schedule of the near 180 differences between the wordings, a comprehensive up-to-date explanation on the rules of policy interpretation, and a similar part on the rules of proximate cause, with special reference to the ISR.

The Guide contains case studies, and court decisions. The Guide is fully indexed for easy reference.

IT WILL NEVER HAPPEN TO ME!

The Strategic Management of Crises in Business

ABAI Members AUD80

Over 50% of businesses that suffer a major insured loss fail within 2 years of the event. Of those that survive, 25% change their insurance adviser. As an industry, we need to do things better. This book examines why some businesses are able to, like the mythical phoenix, rise from the ashes and survive the crisis, and yet others fail. The variables for survival are identified, and a model for the successful management of a crisis from disaster to full recovery is provided. The results of the study are important to businesses to know what they need to concentrate on, with tips on what not to do. It also provides useful advice to insurers, insurance advisers and loss adjusters, and suggests issues that could be handled better by the industry to assist the insuring public when they need the insurance industry most. Researched by one of Australia's most experienced and highly qualified insurance and business recovery experts, Dr Allan Manning, you will find this an informative insight into the very reason for insurance.

Excerpts of these Guides are available online at www.LMIGroup.com/Publications. For ABAI members, to order your copy of these Guides with a 20% discount, please complete the section overleaf, and forward with your cheque to:
